

### Colourful flowers.

Make some bright flowers for your child's room.

### Adult supervision is essential when making and playing with home made toys.

Involve and talk with your child as much as possible while creating this activity.

## PAPER PLATE FLOWER

### You will need:

- copy of activity template
- coloured paper - several different colours (or crayons, paint, pencils)
- paper plate (plain)
- scissors
- glue
- string

### Instructions

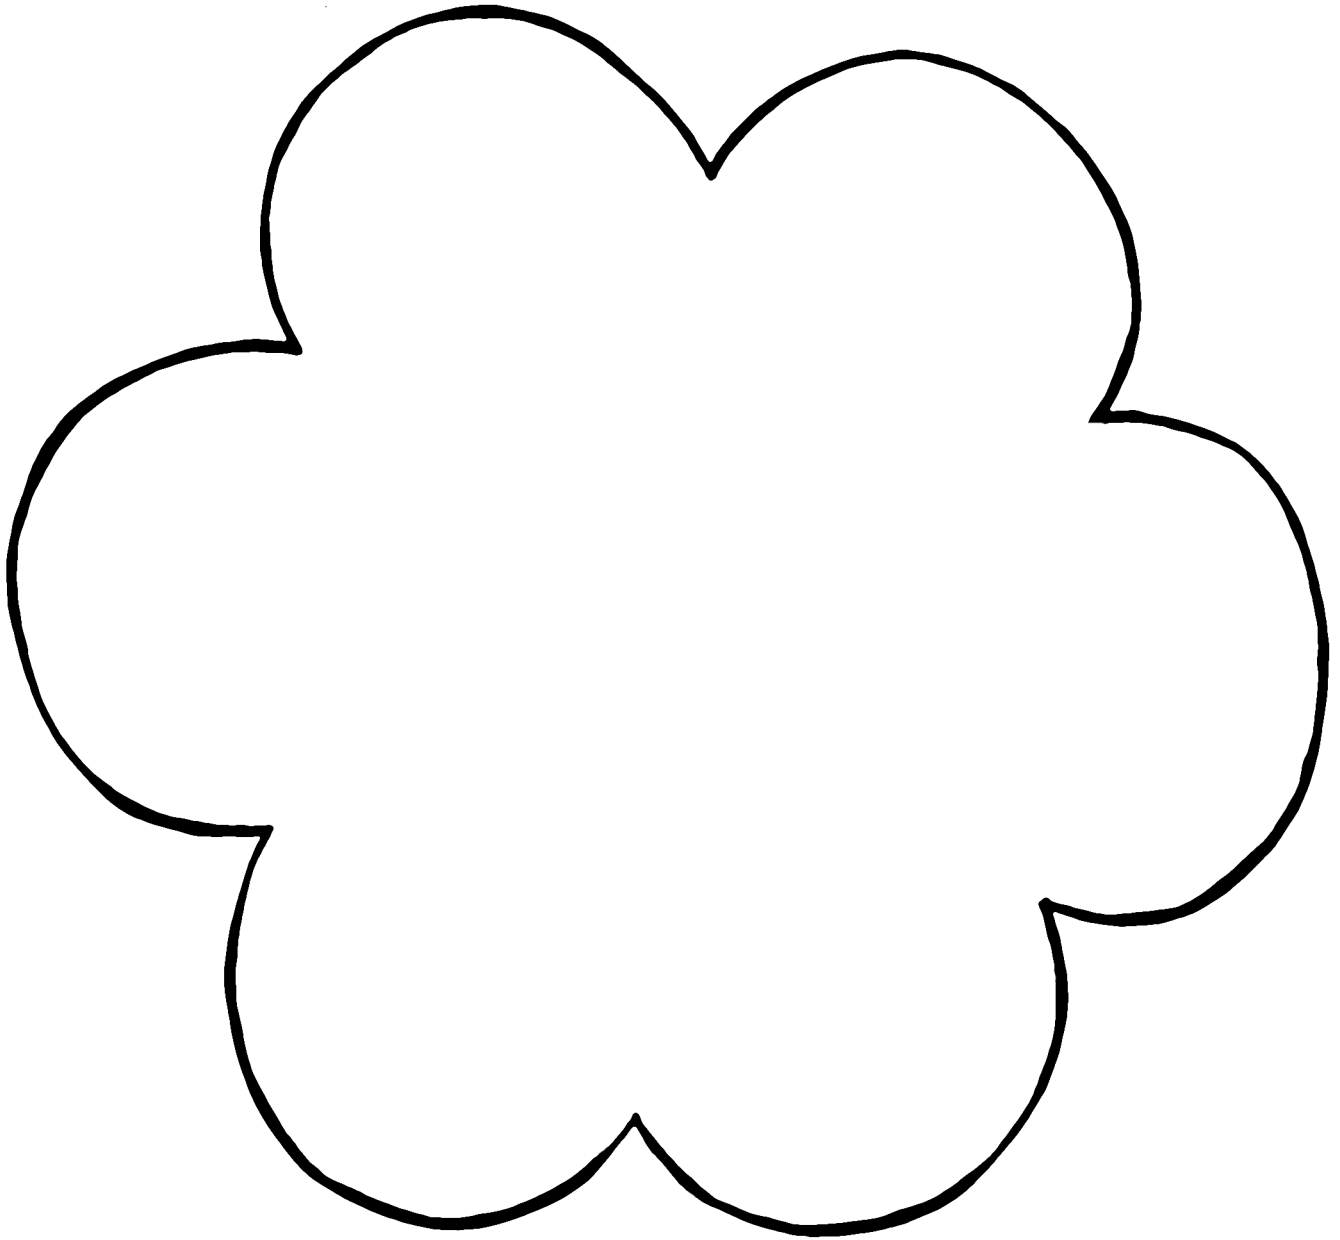

1. Use the templates to cut the flower pieces out of coloured paper. (If you prefer you can colour in the various pieces rather than using coloured paper)
2. Help your child to glue the flower and leaves to the paper plate.
3. Attach the string and hang the flower up.
4. Say the the names of the different colours with your child.

### Ideas

Make more than one flower using different coloured paper.

Make cardboard stencils of the flower pieces and help your child trace around the stencil onto the coloured paper.

If you use a large paper plate, try cutting the plate to the shape of the flower petals. (see photo)
